This agreement is made and entered into this ___ day of _____, by and between the Iowa Department of Public Health (IDPH) and ________ (Researcher).

I. Purpose.  IDPH supports research activities which benefit the health and well-being of Iowans.  IDPH recognizes that conducting research for new insights and innovative solutions to health problems is one of the ten essential public health services.  It is the mutual desire of IDPH and the Researcher to provide the Researcher with limited access to Vital Statistics Records for the purpose of enabling the Researcher to implement the research project described in the Application for Access to Confidential Vital Statistics Records Data (“Application,” attached as Attachment 1).

II. Legal Authority.  Certificates and records of births, deaths, fetal deaths, adoptions, marriages, dissolutions, and annulments, and data related thereto (“Vital Statistics Records”) which are maintained by the state registrar of IDPH are confidential under Iowa law.  (Iowa Code section 144.43).  However IDPH may permit access to Vital Statistics Records when it deems such records essential for bona fide research purposes which are not for private gain.  (Iowa Code section 144.44).

III. Duties of the Parties.

A. Duties of IDPH.  Following a review of the Application, IDPH through its Ethics Committee has found the Vital Statistics Records requested in the Application to be essential for the research project described, has found such project to be for bona fide research purposes, and has found that such project is not for private gain.  IDPH therefore agrees to release to Researcher the Vital Statistics Records requested in the Application (Attachment 1).

B. Duties of Researcher.  The Researcher agrees to the following:

1. Use.  All Vital Statistics Records shall be used only for bona fide research purposes as set forth in the Application.  The Researcher shall not use or permit others to use the Vital Statistics Records in any way except for statistical reporting and analysis.
a. **No personally identifiable data provided.** If IDPH has not provided Researcher with personally identifiable data, the Researcher shall not use nor allow anyone else to use the Vital Statistics Records to learn the identity of any person contained in the certificates or data provided. If the identity of any person is discovered inadvertently the Researcher will not make use of this knowledge; will immediately notify the IDPH; will safeguard or destroy the information which led to the identification of the individual as requested by the IDPH; and will inform no one else of the discovery.

b. **Personally identifiable data provided.** If IDPH has provided Researcher with personally identifiable data, such data or information from the Vital Statistics Records shall not be used to establish contact with the named person or his/her family without prior written approval from IDPH. Prior to contacting the named person or his/her family, the Researcher shall execute IDPH’s Protocol for contacting subjects of Vital Statistics Records.

2. **Storage.** All Vital Statistics Records received shall be stored in a secure locked area with access restricted to project personnel for research purposes only as set forth in the Application.

3. **Confidentiality.** The Researcher shall maintain the confidentiality of all Vital Statistics Records. The Researcher shall not disclose any confidential information contained in the Vital Statistics Records, including but not limited to names and other identifying information of persons who are the subject of such records, either during the period of this Agreement or hereafter. All identifiable and personal indicators shall be kept strictly confidential and shall not be used or released for any purpose.

   The Researcher shall provide to IDPH a written description of its policies and procedures to safeguard confidential information. The Researcher shall designate one individual who shall remain the responsible authority in charge of all Vital Statistics Records collected or used by the Researcher in connection with this Agreement.

   Information from the Vital Statistics Records shall not be used to establish contact with the named person or his/her family without prior written approval from IDPH. Prior to contacting the named person or his/her family, the Researcher shall execute IDPH’s Protocol for contacting subjects of Vital Statistics Records.

   This Agreement requires that the organization will ensure the confidentiality of Vital Statistics Records it may provide to a sponsoring agency.

   The Researcher shall immediately report to IDPH any unauthorized disclosure of confidential information. Such disclosure shall be grounds for immediate termination of this Agreement.

4. **Destruction.** All certificates and data received from Vital Statistics Records shall be destroyed at the termination of the research project or in any case within two years, unless need for further retention is explained in the project description and approved in writing by IDPH through addendum to this Agreement. Destruction shall be by means which render the Vital Statistics Records unidentifiable and useless. The Researcher shall provide notification to IDPH of the destruction of the records.
5. **Fees.** The Researcher shall reimburse IDPH in accordance with the attached fee schedule. The fee per certificate copy or index search may change, as Iowa law requires that fees be collected sufficient to cover the actual cost of providing the certificates. The Researcher shall receive thirty (30) day written notice prior to any fee changes.

6. **Future Requests.** All future certificate requests, relative to the described project, shall make reference to the above agreement number.

7. **Modifications.** If during the research study there is a modification to the project or if the project is terminated notice shall be sent to IDPH explaining the modifications or stating date of termination.
