**Introduction**

This codebook has two purposes. For users of the Longitudinal Tract Database (LTDB) web-based map system the Table on the following pages lists the variables that are available for each year. An asterisk (*) identifies variables that are defined differently in different years. Variables are divided into four major categories. These categories are Race/Age by Race, Ethnicity and Immigration, Socioeconomic Status, and Housing/Age/Marital Status. In order for the map system to work faster, users are asked first to select a category of variables, then a specific variable within that category. The “identify” function in the map system allows users to select a tract and see the actual data for it (a pop up box lists all the variables in the same variable category). They are listed with abbreviated variable names that are explained in the Table.

The second purpose of the codebook is to provide documentation for the source variables used in LTDB. Users are encouraged to be familiar with the variable definitions in these original tabulations, especially for variables that have had changes in definitions or coverage.

Entries in Section I list all of the variables that can be downloaded. The notes list the variable name as found in LTDB and the years for which the variable is available. They also identify whether the variable is based on full-count or sample information. The downloadable LTDB data files have been divided into data drawn (in most if not all years) from the full-count census and data that are based on sample counts (the long-form questionnaire of censuses through 2000 and the American Community Survey). Some data (e.g., total population) are available from both sources. When constructing new variables, such as percentages or rates, be sure that both the numerator and denominator are from the same populations (either full count or sample count).

Entries in Section II list all of the constructed variables that are used in the map system and clarify how they were calculated (e.g., what variable was used in the numerator and what variable in the denominator).

In variable names XX designates the year, from “70” for 1970 to “10” for 2010; “0a” refers to the 2006-2010 ACS.

Section I. Variables included in the LTDB file download
[These variables include all of the counts on which constructed variables in the LTDB map system are calculated]

Variable Group 1: Race and Age by Race

**popXX**
Description: total population
Census data sources:
- 1970: Count 2 (100% Data), T1
- 1980: STF1 (100% Data), T1
- 1990: STF1 (100% Data), P1
- 2000: SF1 (100% Data), P1
- 2010: SF1 (100% Data), P1
- 2006-10 ACS: (Sample-Based Data), B01001

**whiteXX**
Description: persons of white race
Availability: 1970 only
Census data sources:
- 1970: Count 2 (100% Data), T1
Notes: Before 1980 Census, non-Hispanic iteration was not available.

**nhwhtXX**
Description: persons of white race, not Hispanic origin
Census data sources:
- 1980: STF1 (100% Data), T7 & T9
- 1990: STF1 (100% Data), P10
- 2000: SF1 (100% Data), P4
- 2010: SF1 (100% Data), P9
- 2006-10 ACS: (Sample-Based Data), B03002
Notes: This variable is conceptually differently from “whiteXX” in 1970. In 1980, this variable is constructed by subtracting white persons of Spanish origin from the total white population. In the 2000 and 2010 censuses and 2006-10 ACS, where multiple racial identities are allowed, the race category of “White Alone” in combination with the Hispanic origin of “not Hispanic” is used to define this variable.

**blackXX**
Description: persons of black race
Availability: 1970 only
Census data sources:
- 1970: Count 2 (100% Data), T1
Notes: Before 1980 Census, non-Hispanic iteration was not available.

Variables in LTDB downloadable files
**nhblkXX**
Description: persons of black race, not Hispanic origin  
Census data sources:
- 1980: STF1 (100% Data), T7 & T9  
- 1990: STF1 (100% Data), P10  
- 2000: SF1 (100% Data), P4  
- 2010: SF1 (100% Data), P9  
- 2006-10 ACS: (Sample-Based Data), B03002  
Notes: This variable is conceptually different from “blackXX” in 1970. In 1980, this variable is constructed by subtracting black persons of Spanish origin from the total black population. In the 2000 and 2010 censuses where multiple racial identities are allowed, the race categories of “black alone” and “black in combination with other races” is used in combination with the Hispanic origin of “not Hispanic” to define this variable.

In the 2006-10 ACS, there is no table that distinguishes Hispanics from non-Hispanics for multi-racial blacks. We estimate this population using the assumption that the proportion of multi-race blacks in the tract who are Hispanic is the same as that of single race blacks (which is given).

**hispXX**
Description: persons of Hispanic origin  
Census data sources:
- 1980: STF1 (100% Data), T9  
- 1990: STF1 (100% Data), P8  
- 2000: SF1 (100% Data), P4  
- 2010: SF1 (100% Data), P9  
- 2006-10 ACS: (Sample-Based Data), B03002

**ntvXX**
Description: persons of Native American race  
Census data sources:
- 1980: STF1 (100% Data), T7  
- 1990: STF1 (100% Data), P10  
- 2000: SF1 (100% Data), P4  
- 2010: SF1 (100% Data), P9  
- 2006-10 ACS: (Sample-Based Data), B03002
Notes: In 1980, this variable is constructed from the race category “American Indian, Eskimo, or Aleut.” In 1990, this variable is constructed from the race category “American Indian, Eskimo, or Aleut” in combination with “not of Hispanic origin.” In 2000 and 2010 censuses and 2006-10 ACS, the race category of “American Indian and Alaskan Native (AIAN) alone or in combination with another race (except black)” in combination with the Hispanic origin of “not Hispanic” is used to define this variable.
asianXX
Description: persons of Asian race (and Pacific Islander)
Census data sources:
   1970: Count 2 (100% Data), T1
   1980: STF1 (100% Data), T7
   1990: STF1 (100% Data), P10
   2000: SF1 (100% Data), P4
   2010: SF1 (100% Data), P9
   2006-10 ACS: (Sample-Based Data), B03002
Notes: In 1970 and 1980, there is no Hispanic iteration for Asians and Pacific Islanders. In 1990, this variable is constructed from the race category “Asian or Pacific Islander” in combination with “not of Hispanic origin”. In 2000 and 2010, the race categories of “Asian/Pacific Islander Alone” and “Asian/Pacific Islander in combination with another race (except black and native American)” are used together with the Hispanic origin of “not Hispanic” to define this variable.
   In 2006-10 ACS, the race categories of “Asian Alone” and “Native Hawaiian and Other Pacific Islander alone” in combination with the Hispanic origin of “not Hispanic” are used to define this variable.

hawXX
Description: persons of Hawaiian race
Census data sources:
   1970: Count 2 (100% Data), T1
   1980: STF1 (100% Data), T7
   1990: STF1 (100% Data), P7
   2000: SF1 (100% Data), PCT8
   2010: SF1 (100% Data), PCT8
   2006-10 ACS: (Sample-Based Data), B02007
Notes: There is no Hispanic iteration in any year.
   In 1970, “Hawaiian” is provided as one of the nine race categories.
   In 1980, it is presented as one of the subcategories of “Asian and Pacific Islander.”
   In 1990, it is a subcategory of “Polynesian” under the umbrella of “Asian or Pacific Islander.”
   In 2000 and 2010 censuses and 2006-10 ACS, the race category of “Native Hawaiian” under the larger group of “Native Hawaiian and Other Pacific Islander (NHPI) Alone” race is used to define this variable.
**indiaXX**
Description: persons of Asian Indian race
Census data sources:
1970: Count 2 (100% Data), T1
1980: STF1 (100% Data), T7
1990: STF1 (100% Data), P7
2000: SF1 (100% Data), PCT7
2010: SF1 (100% Data), PCT7
2006-10 ACS: (Sample-Based Data), B02006
Notes: There is no Hispanic iteration for this variable in any year. In 1970, one of the nine race categories of “Asian Indian” is used. In 1980 and 1990, “Asian Indian” race under the larger category of “Asian and Pacific Islander” is used. In 2000 and 2010 censuses and 2006-10 ACS, “Asian Indian” race under the larger category of “Asian Alone or in Combination with One or More Races” is used.

**chinaXX**
Description: persons of Chinese race
Census data sources:
1970: Count 2 (100% Data), T1
1980: STF1 (100% Data), T7
1990: STF1 (100% Data), P7
2000: SF1 (100% Data), PCT7
2010: SF1 (100% Data), PCT7
2006-10 ACS: (Sample-Based Data), B02006
Notes: There is no Hispanic iteration for this variable in any year. In 1970, one of the nine race categories of “Chinese” is used. In 1980 and 1990, “Chinese” race under the larger category of “Asian and Pacific Islander” is used. In 2000 and 2010 censuses and 2006-10 ACS, the race categories of “Chinese” and “ Taiwanese” under the larger category of “Asian Alone or in Combination with One or More Races” are used to define this variable.

**filipXX**
Description: persons of Filipino race
Census data sources:
1970: Count 2 (100% Data), T1
1980: STF1 (100% Data), T7
1990: STF1 (100% Data), P7
2000: SF1 (100% Data), PCT7
2010: SF1 (100% Data), PCT7
2006-10 ACS: (Sample-Based Data), B02006
Notes: There is no Hispanic iteration for this variable in any year. In 1970, one of the nine race categories of “Filipino” is used.
In 1980 and 1990, “Filipino” race under the larger category of “Asian and Pacific Islander” is used. In 2000 and 2010 censuses and 2006-10 ACS, “Filipino” race under the larger category of “Asian Alone or in Combination with One or More Races” is used.

**japanXX**
Description: persons of Japanese race
Census data sources:
- 1970: Count 2 (100% Data), T1
- 1980: STF1 (100% Data), T7
- 1990: STF1 (100% Data), P7
- 2000: SF1 (100% Data), PCT7
- 2010: SF1 (100% Data), PCT7
- 2006-10 ACS: (Sample-Based Data), B02006
Notes: There is no Hispanic iteration for this variable in any year. In 1970, one of the nine race categories of “Japanese” is used. In 1980 and 1990, “Japanese” race under the larger category of “Asian and Pacific Islander” is used. In 2000 and 2010 censuses and 2006-10 ACS, “Japanese” race under the larger category of “Asian Alone or in Combination with One or More Races” is used.

**koreaXX**
Description: persons of Korean race
Census data sources:
- 1970: Count 2 (100% Data), T1
- 1980: STF1 (100% Data), T7
- 1990: STF1 (100% Data), P7
- 2000: SF1 (100% Data), PCT7
- 2010: SF1 (100% Data), PCT7
- 2006-10 ACS: (Sample-Based Data), B02006
Notes: There is no Hispanic iteration for this variable in any year. In 1970, one of the nine race categories of “Korean” is used. In 1980 and 1990, “Korean” race under the larger category of “Asian and Pacific Islander” is used. In 2000 and 2010 censuses and 2006-10 ACS, “Korean” race under the larger category of “Asian Alone or in Combination with One or More Races” is used.

**vietXX**
Description: persons of Vietnamese race
Census data sources:
- 1980: STF1 (100% Data), T7
- 1990: STF1 (100% Data), P7
- 2000: SF1 (100% Data), PCT7
- 2010: SF1 (100% Data), PCT7
- 2006-10 ACS: (Sample-Based Data), B02006
Notes: There is no Hispanic iteration for this variable in any year. In 1980 and 1990, “Vietnamese” race under the larger category of “Asian and Pacific Islander” is used. In 2000 and 2010 censuses and 2006-10 ACS, “Vietnamese” race under the larger category of “Asian Alone or in Combination with One or More Races” is used.

**agewhtXX**
Description: white population with known age distribution
Census data sources:
- 1970: Count 2 (100% Data), T2B
- 1980: STF3 (Sample-Based Data), T16
- 1990: STF1 (100% Data), P12A & P12B
- 2000: SF1 (100% Data), PCT12I
- 2010: SF1 (100% Data), PCT12I
- 2006-10 ACS: (Sample-Based Data), B01001H
Notes: In 1970, 1980, and 1990, there is no Hispanic iteration for this variable. In 2000 and 2010, the universe is non-Hispanic white alone population.
