Upcoming Information Services Workshops  
January and February 2017

Free and open to all. Held in 1450, ISR-Thompson.  
Email yanfu@umich.edu to sign up or to set up a tutorial for yourself.

EndNote: Basic to Advanced (same workshop offered twice)  
Rm 1450, Thompson, Thursday, Jan 26, 3:00-4:15  
Rm 1450, Thompson, Friday, Feb 3, 12:00-1:15  
This is a fast paced workshop that provides an overview of what EndNote is capable of. The first half of the class will provide the basics of EndNote, i.e. creating libraries, importing citations, creating groups and writing with EndNote. The second half will focus on customizing in text citations and reference styles.

NIH MyNCBI Tools for Grant Reporting, Compliance and Biosketch  
Rm 1450 Thompson, Tuesday Jan 31, 2:00-3:00  
Although not required at this point, the NIH suggests the use of SciENcv designed to create biosketches for multiple federal agencies. The effective use of MyNCBI tools increase efficiency for managing NIH sponsored research. The workshop will cover: how to use My Bibliography for grant reporting and compliance, how to create an NIH or NSF biosketch with SciENcv.

Demonstrate Impact with Citation Counts and Altmetrics  
Rm 1450 Thompson, Tuesday, Feb 7, 1:00-2:00  
Come and learn the different types of metrics tools and how these metrics can be used to tell your stories and demonstrate impact of your work. We will talk about author, article and journal level of metrics, highlighting tools such as Web of Science, Scopus, Publish or Perish, Google Scholar, PubMed Central and Altmetrics Explorer.

Other information services available:  
- Training for research assistants including UROP students on how to do a lit search and how to organize and share results with EndNote or Zotero  
- Making presentations at standing meetings on a resource (e.g., NIH biosketch tool, My Bibliography for progress report, Zotero for group project, citation and altmetrics tools, tools for keeping up)  
- Setting up grants and literature alerts for topics/projects. We can set up the alerts for you or show you how to do it.  
- Delivering electronic Table of Contents (email Lee at ljridley@umich.edu).  
- Performing lit search for your project or grant proposal.  
- Assisting with NIH public access compliance, depositing papers and helping with pubs-in-progress reports.

Email us for more information or to set up assistance:
